## Online Safety

The internet is an amazing resource which enables children and young people to connect, communicate and be creative in a number of different ways, on a range of devices. However, the internet is always changing, and being able to keep up to date with your children's use of technology can be a challenge.

Some online content is not suitable for children and may be hurtful or harmful.

It is really important to chat with your children on an ongoing basis about staying safe online.

The graphic features a dark red background with a lightbulb icon on the left and a question mark icon on the right. The title 'Internet Safety Tips for Parents' is written in yellow and white text. Below the title, there is a list of five tips in white text.

- Set up rules for using the computer and internet.
- Never let your child give out personal information.
- Check the websites and services that your child uses.
- Get to know your child's online buddies.
- Location of computer

## Healthy relationships

We aim to make the children aware of diverse family structures within our society. Relationships will be discussed in line with the Quran and Sunnah.

In KS1 we will explore and discuss children's wellbeing and promote confidence and self esteem in our Islamic identity.
